

NCRR 22 Rimfire Clinic

Saturday, Sept 15th, 2018

2pm to 5pm NCRR Clubhouse and Indoor Range

For new shooters looking to get started with a fun shooting game, or experienced shooters looking to improve/maintain their shooting skills, the Rimfire Matches are a good place to start. All that is required is a 22 rimfire rifle or pistol, spare magazines and about 150 round of 22LR ammo per match (less if you don't miss). Matches are held on the 2nd Wednesday for Pistol and the 4th Wednesday for Rifle.

The clinic will cover the basics of how the matches are run, safety and scoring.

Participants will have an opportunity to shoot rifle and/or pistol courses of fire.

Equipment needed for clinic:

Eye and ear protection (some eyes and ears available at the club)

100-150 rounds 22 LR ammo (No 22 Magnums or steel core)

Your 22LR rifle/pistol that you want to use.

22 rifles, semi-auto with spare magazines (10 shot +) works best, but people do use lever and pump action rifles. Iron sights, red dot or scope (4x power or less, the lower the power the easier to use) are all allowed.

22 pistol, semi-auto with spare magazines (10 shot) or 10 shot revolver with speed loaders. Iron sights, red dot or scope are all allowed.

(Some rifles and pistols will be available for those that don't have one yet to try.)

Maximum number of 10-12 shooters. Juniors are welcome as long as they can handle the firearms safely. Minors must be accompanied by parent or responsible adult, who can sign the NCRR Waiver for them.

Send an email with name, email address and phone number to rifire@ncrr.net by Sept 8th, 2018 to register.

Minimum 5 attendees required to hold the clinic.
